Basis for qualified opinion

However, the evidence available to us was limited because we did not attend any physical stocktaking held by the Charity on 31 March 2015 and we were unable to carry out auditing procedures necessary to obtain adequate assurance regarding the quantities and condition of inventories, appearing in the statement of financial position at HK\$82,512. There were no other satisfactory audit procedures that we could adopt to obtain sufficient evidence regarding the existence of inventories.

Qualified opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the state of the Charity's affairs as at 31 March 2015, and of its deficit and cash flows for the year ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of Hong Kong Companies Ordinance.

A summary of significant accounting policies is set out in note 3.

In 2014, the charity has initially applied the new and revised HKFRSs issued by the HKICPA that are first effective for accounting years beginning on or after 1 April 2014. A summary of the changes in accounting policies resulting from the charity's application of these HKFRSs is set out in note 4.

3. Summary of significant accounting policies

a. Basis of preparation of the financial statements

The measurement basis used in preparing the financial statements is historical cost.

b. Fixed assets

Fixed assets represent plant and equipment and are stated in the statement of financial position at cost less accumulated depreciation and impairment losses, if any.

Depreciation is calculated to write off the cost of items of plant and equipment, less their estimated residual value, if any, on a straight-line basis over their estimated useful lives as follows:

Furniture, fixtures and equipment 20% Leasehold improvement 20% Computer equipment 30%

The residual value and the useful life of an asset are reviewed at least at each financial year end.

Notes to financial statements for the year ended 31 March 2015

3. Summary of significant accounting policies (continued)

b. Fixed assets (continued)

The charity assesses at each reporting date whether there is any indication that any items of plant and equipment may be impaired and that an impairment loss recognised in prior years for an item may have decreased. If any such indication exists, the charity estimates the recoverable amount of the item. An impairment loss, being the amount by which the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount, or a reversal of impairment loss is recognised immediately in statement of profit or loss and other comprehensive income.

Gain or loss arising from the derecognition of an item of plant and equipment is included in statement of profit or loss and other comprehensive income when the item is derecognised and is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

c. Leases

A lease is an agreement whereby the lessor conveys to the lessee in return for a payment or series of payments the right to use an asset for an agreed period of time. Determining whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset or assets and arrangement conveys a right to use the asset.

Lease of assets are classified as finance lease when the leases transfer substantially all risks and rewards incidental to ownership of the assets to the charity. All other leases are classified as operating leases.

Operating leases

Lease payments under an operating lease are recognised as an expense on a straightline basis over the lease term. The payments made on acquiring land held under an operating lease are recognised in the statement of financial position as leases premium for land.

Contingent rents are charged as an expense in the year in which they are incurred.

d. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and is assigned by using the weighted average cost formula. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Notes to financial statements for the year ended 31 March 2015

3. Summary of significant accounting policies (continued)

d. Inventories (continued)

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the year in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the year the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the year in which the reversal occurs.

e. Cash and cash equivalents

Cash comprises cash on hand and at bank and demand deposits with bank. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flows, bank overdrafts which are repayable on demand form an integral part of the charity's cash management are included as a component of cash and cash equivalents.
